

Lionfish Roundup !

What?

Come for a weekend of fun! Day one of diving will be our Lionfish Roundup! Buddy teams will hunt in pairs to help remove this invasive species from Gulf Shores beautiful waters. Lionfish are very detrimental to the environments where they are not naturally found. (see Lionfish facts)

Lucky for us they are also an edible and delicious fish. Many restaurants are starting to offer Lionfish on their menus, which could help the diminishing Grouper population. Day two of diving will be pleasure dives on one of Gulf Shores wrecks and on another nearby artificial reef. Let's kick off the season and enjoy some warm weather down South!

When?

April 26-29, 2018

We will leave Thursday early in the morning and car pool to Gulf Shores, AL.

We will head home early Sunday morning.
