

# PADI Tec 50

The third part of the full PADI Tec Deep Diver program is Tec 50. As a Tec 50 diver, you show that you've developed competency as a tec diver and have the skills to dive to a maximum of 165 feet. You know how to make extended, accelerated decompression stops using up to two gases. It's not easy to reach this level and earning your Tec 50 certification opens the door to deeper diving expeditions.
